

A high-angle photograph of a swimming pool covered with a grey, rectangular, 3-in-1 cover. The pool is situated on a stone-paved deck. In the background, there is a clear blue body of water and a rocky coastline. A semi-transparent teal box is overlaid on the left side of the image, containing the text 'Your 3-in-1 cover!'.

Your 3-in-1 cover!

CALYPSO BAR COVERS

Choice, efficiency and beauty

THE MATERIAL:

- Very strong PVC coated polyester fabric: 650g/m².
- UV stabilised and anti-fungal.,
- Lacquered on both surfaces,
- Reinforcement of the surface in contact with the coping (70% of the mass),
- Reverse side is beige: prevents staining of the coping.
- The fabric is unbroken where it passes under the bars: increased strength.
- Cleverly positioned drainage holes to prevent the formation of pockets and deformation of the fabric..

THE BARS:

- Lacquered aluminium the exact same colour as the polyester fabric.
- Polypropylene plugs fitted into the bars, discreet and strong,
- Fibreglass reinforced drive plugs to resist mechanical stress loading.

COPING WEAR PADS:

Ideal solution for free-form pools (polyester shell, etc.). The pads can be adjusted to adapt to the pool shape and protect the cover and the bars at the contact points.

The pads are made of a supple material that protects, absorbs impacts and protects against abrasion. They are removable and easily replaced.

THE FASTENING SYSTEM:

- Sheathed, stainless steel cables : no corrosion, no rough surfaces (protects the cover fabric and people).
- Ratchet buckles to tension the cables.
- Polyamide sleeves are fitted over the buckles and the canvas, the deck is clean and secure, no risk to injury to children.
- 3 bar tensioning straps, tensioned with cam buckles that can be slid along the 1st bar to correctly install the cover.

THE STEPS:

Across the width of the cover: Slip onto the last bar of the cover to allow the step piece to be positioned with greater accuracy.

Along the length of the cover: an additional bar joins the ends of the step piece.

FASTENING AND FINISH DETAILS

View showing the end of a cover bar with a safety and tensioning cable. The lacquered aluminium bars are the same colour as the cover material.

Tensioning and fastening strap featuring a ratchet buckle on each strap along the cover lengths and a cam buckle on each strap along the cover width.

Sheath to protect the tensioning and fastening assembly once the cover has been deployed over the pool.

Detail of the fastening and tensioning device fastening system, Ø 8 mm stainless steel/ aluminium bushing.

COVER YOUR POOL IN TOTAL SAFETY!

Calypso, is ...

... WELL DESIGNED

To optimise the safety and protection of young children and pets, a stainless steel cable is fitted along both lengths of the CALYPSO cover to stiffen the edges of the cover and stop anyone from sliding underneath. All the fasteners are sheathed in protective sleeves to prevent abrasion of the cover while it is being deployed.

Calypso is a PVC cover reinforced with aluminium bars. It rolls up and out easily, providing reliable protection for your pool.

The Calypso cover is a safety cover that replaces the winter cover, the summer cover and its cover roller.

In addition, it secures your pool as required by law.

By choosing Calypso, you save time, money and storage space.

... HARD WEARING

Calypso comprises a UV treated, strong (650g/m²) hard wearing polyester fabric membrane. The cover fabric continues underneath the bars for enhanced mechanical strength. This strong membrane is lacquered on both surfaces to withstand wear and tear, physical/chemical attacks and the weather. Extruded aluminium bars strengthen and stiffen the cover so that it would not be damaged by a child falling onto it.

... HARMONIOUS

To enhance the cover's visual appeal, the bars are lacquered (apart from the grey bars which are anodised) and coloured to match the cover fabric, a Procopi exclusive.

Calypso is available in 4 colours: blue/beige, green/beige, sand/beige and grey/beige.

The underside of the cover is always beige to prevent staining that could occur where the fabric is in contact with the coping.

A motorised crank is available as an option. Fast and easy to use, a cover over a 10 m pool can be rolled up in 45 seconds (delivered with 2 batteries and 1 charger).

Hand crank available as an option (1 hand crank is required for covers up to 4.90 m wide). No complicated mechanisms, no risk of breakdown.

... SIMPLE TO USE

Simply pull on strap to roll it out. Roll it up without stress or strain using a hand or motorised crank. (available as an option).

... PRATICAL

A single cover to install for years of care-free enjoyment. You escape the nuisance of seasonal cover changes and the drudgery: cleaning, folding and storing the cover removed unfolding and installation of the other cover.

Choose comfort, choose Calypso.

... EASY TO CLEAN

With its two lacquered surfaces, CALYPSO stays clean, it is easily washed down with a blast of water.

YOUR YEAR ROUND SAFETY COVER

WINTER KITS FOR POOLS UP TO 12X5 M

(Designed to withstand the weight of snow)

- Inflatable floats made of 0.50 mm thick PVC with a valve for inflation and eyelets for attachment.
- 2 floats for pools less than or equal to 4 m wide.
- 3 floats for pools more than 4 m wide.
- Straps and attachment fittings.
- 1 foot pump.

Pool width	Manipulation of the cover	Number of people
- 5 m	Roll up/ Roll out	1
+ 5 m	Roll up	2
	Roll out	1

The Calypso cover can be rolled up/ rolled out in less than 5 minutes.

CALYPSO IS A BWT GROUP BRAND

Calypso is made by Procopi, member of BWT, the No. 1 French pool equipment manufacturer. This is the best possible guarantee of quality and continuity that you could have.

SAFETY

Year round, it provides effective protection against the risks of accidental falls and their consequences.

WATER PURITY

During winter, it keeps leaves and dirt out of your pool. Summer reopening is made easy, fewer water treatment products are required. Your pool water is cleaner and costs are reduced.

THERMAL INSULATION

During summer, it guards your pool against cool nights and cold winds. Efficient thermal insulation keeping your pool precious degrees warmer.

LEGAL INFORMATION

Calypso complies with the French standard NF P 90-308 (May 2004 version concerning pool protection) in as far as all the components of the cover are provided by PROCOPI.

A safety cover for pools intended to deny children under five access to the pool. This cover is no substitute for common sense or individual responsibility. Nor is it intended to replace the vigilance of parents and/or responsible adults which remains key to ensuring the protection of young children.
