## Technical data:

- Salt Chlorine generator with the ability to control pool equipment
- Salt Chlorine generators with a wide range of production rates, 16, 22, 33 g/h, to cover the needs of all pools on the market
- Transparent cell to visually monitor production
- Water flow control by gas detector included as standard (if the cell is mounted vertically)
- Control of the filtration pump and underwater light
- No need for an additional transformer for LED underwater lights up to 50W, power is supplied directly by the control box
- pH, ORP regulation kits and mechanical flow switch available as options
- WiFi connection kit available as an option: using an app, the device can be controlled and settings saved remotely

## Options:

- Flow switch for PRO A salt Chlorine generators
- Wifi module for PRO A salt Chlorine generators

pH kit for PRO A salt Chlorine generators

Redox Kit for PRO A salt Chlorine generators
